Connecticut Trail Census

Program Background-

Overview

CTTC Fundamentals:

- Volunteer driven & community focused
- Facilitates the collection of 2 types of data:
 - 1) Count data:
 - Number of trail uses
 - 2) Survey data:
 - Demographic data about trail users

Mission:

Develop a better understanding of multi-use trail use in the state and make this important information available to trail user groups, administrators, government agencies, and the general public.

Understanding the Data

Trail Use Counts

Caveats and Limitations:

- Count data shows number of uses or trips, not visits or visitors.
- Raw data was adjusted or “calibrated” using manual counts completed by volunteers.
- The manual counts showed that the IR counters consistently undercount.
